

LIMELIGHT PRIVATE CLOUD AS A SERVICE

Dedicated, on-premise technology consumption model, fully customizable to your businesses' needs.

Fully managed by our team of experts. 24 hours a day, 7 days a week, 365 days a year.

WHY LIMELIGHT PCaaS

Customization

When you use public cloud computing, you have no control over how your IT infrastructure is designed and when updates are scheduled. With Limelight PCaaS, you're in complete control, always.

Service-Level Agreements

Yes, public cloud does provide with you Service Level Agreements (SLAs). However, those agreements don't consider YOUR business needs. With Limelight PCaaS, your SLAs are based on your needs, schedule and objectives. Again, you're in complete control.

Expertise at Your Fingertips

When you hire TBL, you don't hire a vendor—you acquire a strategic partner. Which means you have open access to our team's deep expertise. We're always on the lookout for new and better solutions that will propel your business forward.

ITIL-Based Process

We will make available to you real-time ITIL-based process reports for you to deliver directly to the regulators.

NO CAPITAL EXPENDITURES | ON-PREMISES | PREDICTABLE MONTHLY COSTS
